CHAIRS AND STOOLS

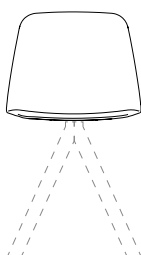

The powder coated steel tube structure and the carefully made, elegant, upholstered seat of the Maarten chair recall the classics of the '70s. Maarten is available in a wide variety of base and seat finishes to fit with all kind of environments. Fixed upholstery covering available in the soft and smooth versions.

Plastic chairs with four metal legs or sled base can be stacked up to 10 units and up to 4 units for the upholstered chairs. We do not recommend stacking upholstered chairs for long periods of time as it can damage the upholstery.
