

Tatu pie

André Ricard. 2021
Floor Lamps

Tatu, Spanish for “armadillo”, is a friendly mammal with a shell on its back that protects it when it rolls up into a ball. The idea for Tatu was born on a transoceanic flight; while Ricard was reading about Argentinean wildlife, he observed that the light above his seat did not disturb his sleeping wife who was sitting next to him. The lamp became a pop-art icon in Europe. Tatu takes us back to carefree days, when consumer goods came to the European middle classes and their children started a massive aesthetic revolution; from Andy Warhol to The Beatles to Mary Quant. Everything could be expressed differently.

After nearly 50 years, Santa & Cole reedited this classic with improved lighting features. This flex-ible lamp consists of three parts that can rotate independently to adapt its use for a shelf, desk, or bedside table; it could even be used as a wall light, and now as a floor lamp. Santa & Cole’s edition of the original Tatu is enhanced by applying LED technology. This makes the light intensity easily adjustable, and the light source considerably less hot and longer lasting. It also features a moveable converging lens that allows the user to adjust the focal length.

Santa & Cole now presents its floor version. After verifying its good functionality of the table lamp, we present a new floor design that perfectly accomplishes the purpose of illuminating the reader sitting in his armchair.

General description:

Gyratory structure manufactured in metal and ABS plastic in white S&C or red.
Adjustable focal length from 30° to 50°.
Adjustable light intensity 0% to 100%.
Dimmer and switch incorporated into the luminaire.
Electric cable length: 2,5 m / 98.4”.

Approximate weight (unpacked):

4,4 Kg / 9,7 lb

Floor Lamps

Technical information:

Light source included (dimmable).

LED module

Rated input wattage: 6 W

Operating current: 350 mA

Colour Temp.: 2.700 K

CRI: 90

Lifetime: 40.000 h

Luminous flux: 171 lm

Built-in dimmable LED.

Dimmer included.

Energy efficiency class (E.E.C): A++ ... A.

Lamp suitable only for indoor use.

Always use this light source.

Input voltage: 110 ~ 240 Vac.

(50 Hz / 60 Hz). According to destination.

Beam 30°

Beam 50°

Regulations:
